

CWF™ Low Bowl Container Irrigation

Low Maintenance Inserts for Interior and Exterior Low Bowls

Low bowls are some of the most maintenance-intense elements in a commercial landscape. The CWF Low Bowl container irrigation is a self-watering system designed to solve this problem. For over 30 years Tournesol's proven vacuum-sensor watering system has precisely controlled moisture levels in the soil, watering the plant when the soil starts to dry. The oversize reservoir allows for refill intervals up to four times longer than typical hand watering (up to 2-4 weeks for interior plants, 1-2 weeks for exterior). This moisture control, when combined with sub-irrigation (watering from the bottom) makes CWF the most water-efficient of all irrigation for pots & planters.

- Keeps plants healthy, strong and stress free by balancing moisture and oxygen in the soil
- Jumbo fill port - perfect for garden hoses and Tournesol's tamper resistant stopper
- Overflow drainage for exterior applications allows excess rainwater to overflow, prevents irrigation water from draining
- Largest reservoir and longest maintenance interval of any self-watering system

How Tournesol's Container Irrigation Works:

The self-contained reservoir is filled by hand, and closed with a stopper. Water flows through holes in bottom to the soil, and wicks up to level of moisture sensor.

The sensor absorbs moisture and closes, blocking the flow of air through the tube. A vacuum is created, preventing more water from flowing into soil. When the plant has used the water in the soil, the sensor dries, opens and the process starts anew.

CWF Low Bowl Container Irrigation

Part No.	Description	Exterior Size Outside Dia x Ht	Interior Size Inside Dia x Ht	Water Capacity	Soil Volume (cubic ft.)	Container Size Range
CWF-1706	CWF Low Bowl	17"dia x 6"H	15"dia x 5"H	1.1 gal	.15	17.5" - 21.5"
CWF-2107	CWF Low Bowl	21"dia x 7"H	19"dia x 6"H	2.2 gal	.17	21.5" - 25.5"
CWF-2508	CWF Low Bowl	25"dia x 8"H	23"dia x 7"H	2.8 gal	.40	25.5" - 29.5"
CWF-2909	CWF Low Bowl	29"dia x 9"H	27"dia x 8"H	4.4 gal	.41	29.5" - 34.5"
CWF-3410	CWF Low Bowl	34"dia x 10"H	32"dia x 9"H	5.6 gal	.80	34.5"+

Overflow Drainage Feature

Each CWF Low Bowl insert features built-in overflow drainage in the bottom to allow excess rainwater out.

Each insert includes an overflow drain tube and a plug. For use outdoors, thread the overflow drain in the bushing at the base of the insert.

For use indoors (or under cover), no overflow is required. Thread the drain plug into the bushing.
