

RAD East Side Collection Model RES-1110-2730 Table Assembly Instructions

TOP

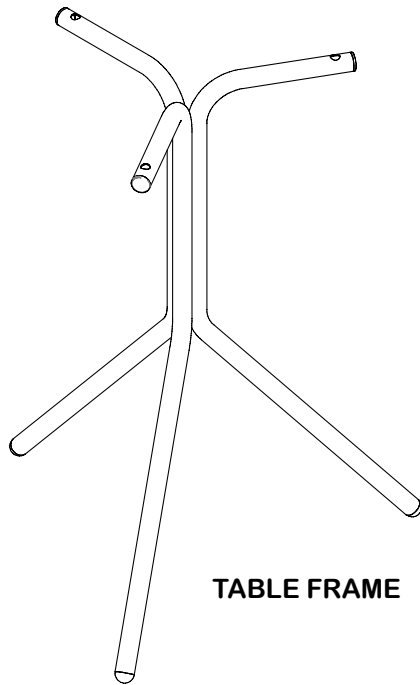

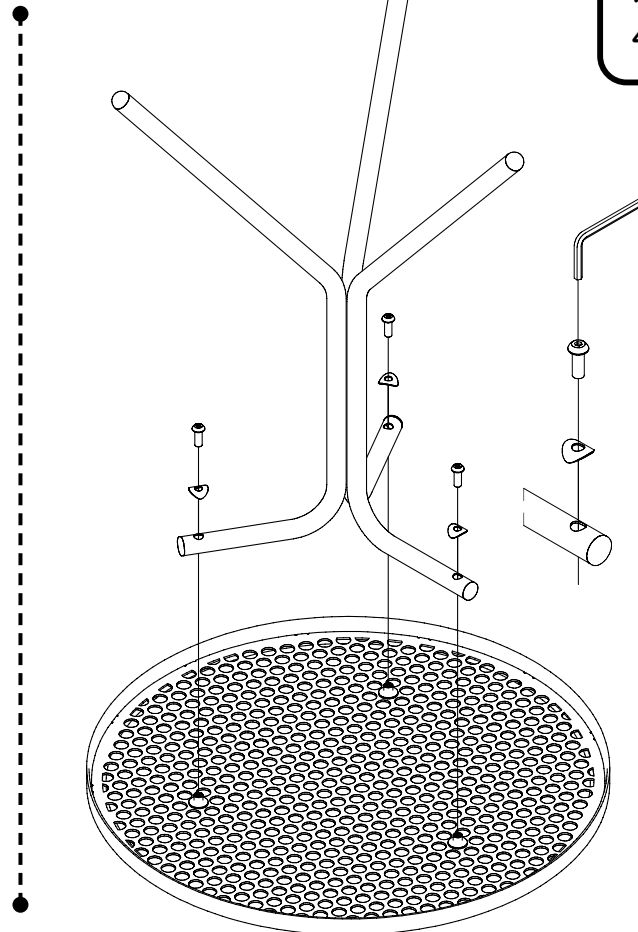

TABLE FRAME

1. Place table top upside down on a padded surface.
2. Place frame assembly upside down and align with the three attachment points in the table top.
3. Place the curved washers on the frame, insert bolts and attach to the top using the provided hex key. (Extra bolt and washer provided)
4. Flip and enjoy your new RAD table.

CARE:

The table surface can be cleaned using a soft cloth with mild soap and warm water; wipe dry with a soft cloth.

MAINTENANCE:

All of our steel/metal tables are primarily designed for use in exterior applications, yet also fit beautifully indoors.

- Clean as needed using either a soft cloth, light bristle brush, or sponge with water and mild detergent.
- Avoid using cleaners containing chlorine.
- Inspect pieces periodically for scratches, nicks, or damaged areas, especially in high traffic areas.
- If your table needs touching up, touch-up paint kits are available for purchase. Ask our sales team for details.
