

Alpha Collection

Modular lightweight GFRC benches with integrated planters

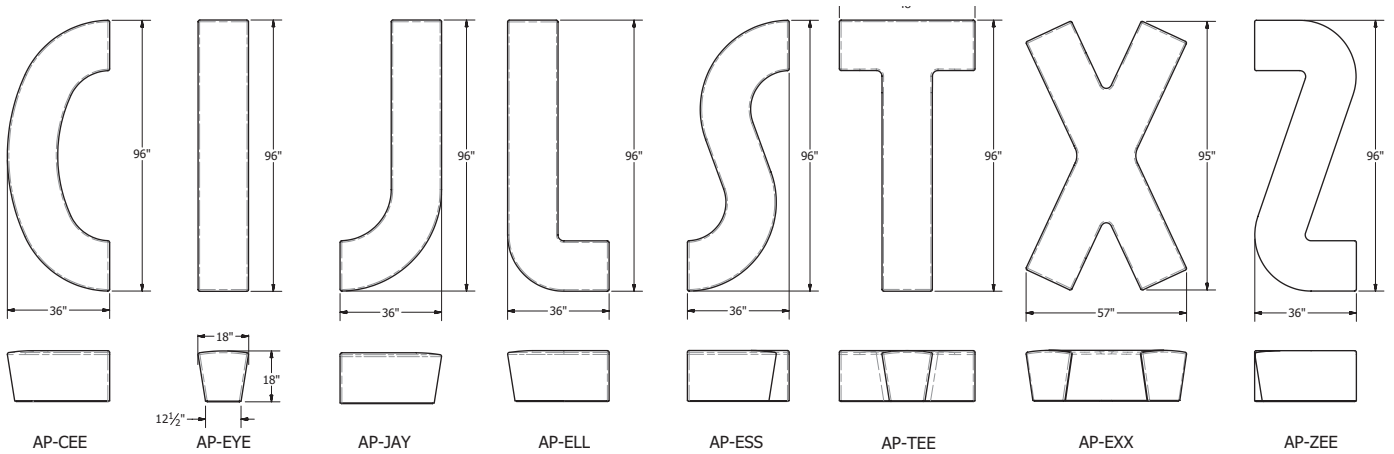

Materials: **Lightweight GFRC concrete**

 **Tournesol** SITEWORKS
Successful sites start here™

A whimsical, yet extremely practical collection of modular lightweight concrete benches and accessories loosely based on letters of the alphabet. With eight letter shapes, this modern backless modular seating is only limited by your imagination. Available with integrated matching Alpha planters in many GFRC colors with two popular textures.

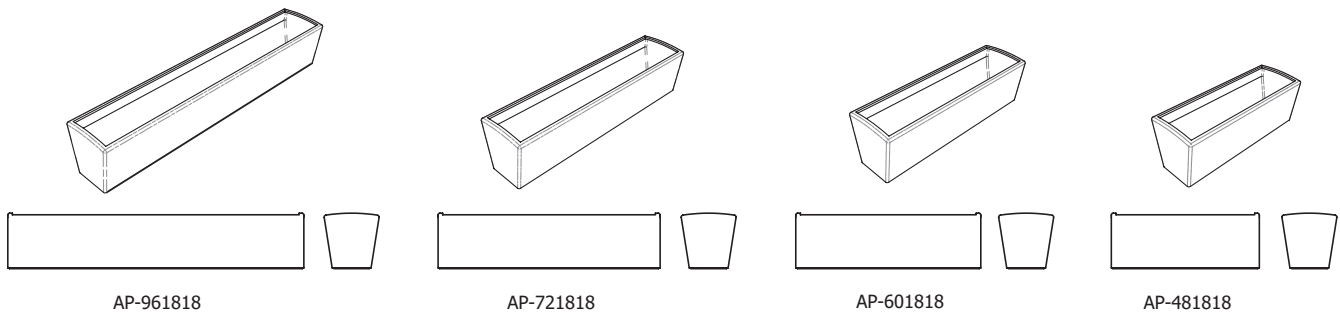

- Highly configurable contoured seating with eight letter shapes
- Available with matching integrated planters for green seating
- Lightweight GRFC concrete - durable for high exposure areas, lightweight for rooftop installations
- Optional stainless steel skate deterrents reduce markings.

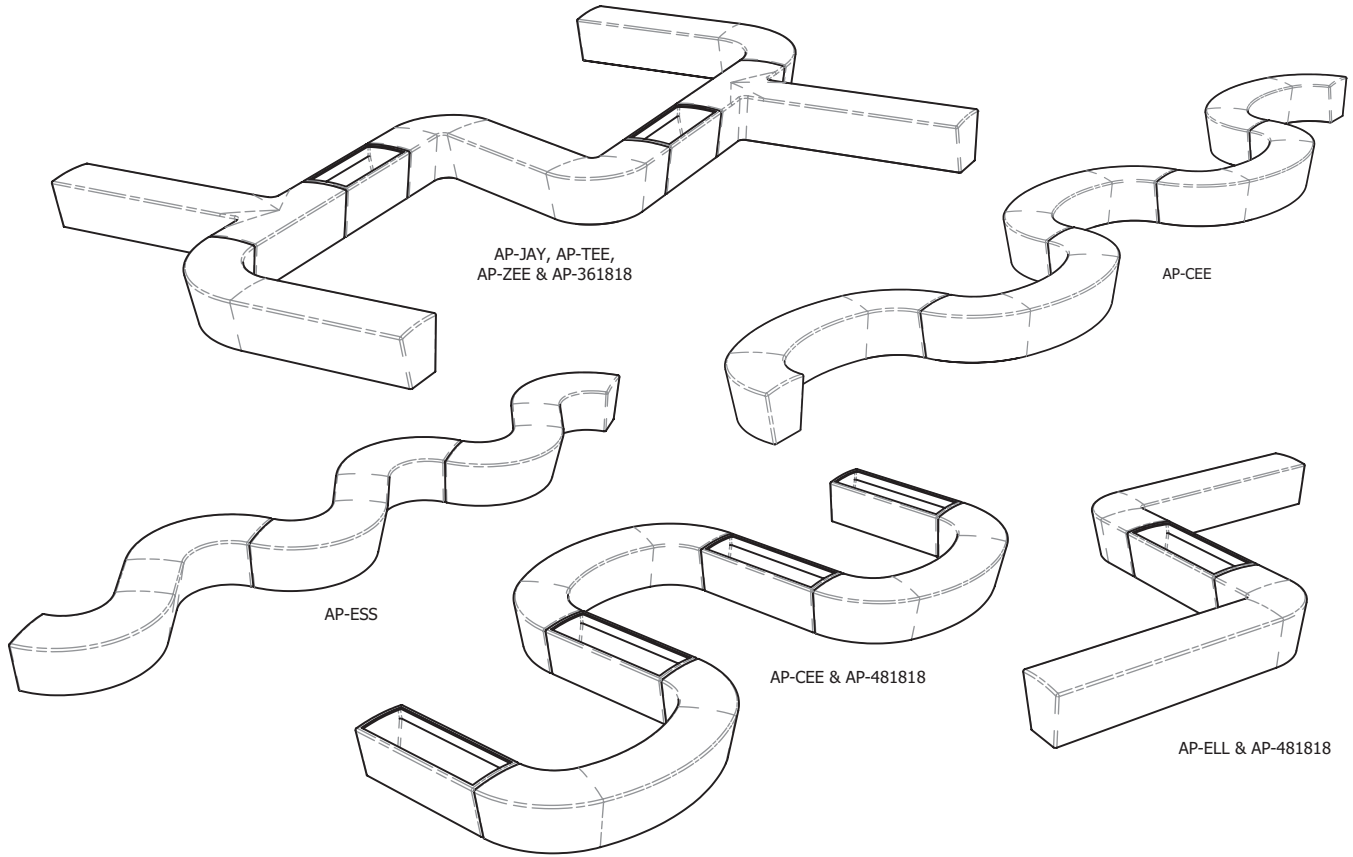

Alpha Collection - GFRC Benches and Planters

Alpha Collection - GFRC Benches and Planters

Sample Configurations

Note: All letter benches are 96" long. Benches are available with hidden internal or exterior anchor brackets - see product drawings for details. Products are treated with medium duty sealant. Planters will be delivered with drain holes unless otherwise specified. Optional skate deterrents to be installed in the field.

All Alpha Collection GFRC benches and matching planters are available in all Tournesol Siteworks GFRC lightweight concrete colors, in either Sandblast or Acid Etch finishes. Please contact your salesperson for samples or details.
