

Skirted Planter Saucers

Materials: **FRP Fiberglass and Lightweight GFRC Concrete**

Tournesol Siteworks' FRP fiberglass and GFRC concrete saucers are sized to naturally fit any of our FRP or GFRC containers, whether round, square or rectangle. The attractive return lip of the saucer will extend just beyond the edge of the container. These saucers will add drainage control to your installation.

- Lightweight saucers designed for heavy-duty use with both FRP and GFRC containers
- Bottom-return design
- Colors and finishes match Tournesol's standard and designer colors

Skirted FRP fiberglass and GFRC Saucers are available to match planters in sizes from 15" to 60", and in many FRP fiberglass and GFRC colors, textures, and finishes. Check with your salesperson for alternative shapes or sizes.
