

Wally Collection

Modern Wall-Hung Backless Benches

Materials: **Wood and Steel or GFRC**

The Wally Collection is a series of backless wood and steel benches designed to be mounted to the side of a lightweight GFRC concrete planter, Wilshire Steel Collection planter, cast-in-place wall, or any sound vertical surface. Available in two different styles in standard 4, 6, and 8 feet nominal lengths.

- Style A may be used as a counter as well as a bench
- The planter or wall can be used as a backrest
- The bench wood seating surface is offered in two different styles
- Versatile seating with custom inside or outside corners - available lengths 4 to 8 feet standard

Wally Collection - Wall-Hung Benches - The "A" style can be used as a counter as well

Part. No.	Description	Size	Weight (Lbs.)
LY-A30-48	Wally Collection "A" Wood and Steel Wall-Hung flat bench	48"L x 18-1/8"W nominal	55-70
LY-A30-72	Wally Collection "A" Wood and Steel Wall-Hung flat bench	72"L x 18-1/8"W nominal	75-95
LY-A30-96	Wally Collection "A" Wood and Steel Wall-Hung flat bench	96"L x 18-1/8"W nominal	95-120
LY-C30-48	Wally Collection "C" Wood and Steel Wall-Hung vertical slat bench	48"L x 20"W nominal	125
LY-C30-72	Wally Collection "C" Wood and Steel Wall-Hung vertical slat bench	72"L x 20"W nominal	175
LY-C30-96	Wally Collection "C" Wood and Steel Wall-Hung vertical slat bench	96"L x 20"W nominal	240

Note: Weight varies depending on material used. Planters used with Wally Collection benches should be GFRC lightweight concrete or steel and require additional reinforcement of the planter wall. Planters that will have a Wally Bench attached must be anchored if they are smaller than 30"W or taller than 30"H. For example, if a planter is 48"W and 24"H, then it would not need to be anchored. Check with your salesperson for details.

Wally Collection benches can be mounted at any height but we recommend between 17" to 19" for seating. The "A" style can be used as a counter as well. Recommended height is 35" for café style and 40" for bar. Mounting hardware not included. Optional skate deterrents may be installed in the field as required. Please contact your salesperson for samples or details.
